# ***Problem Statement***

---

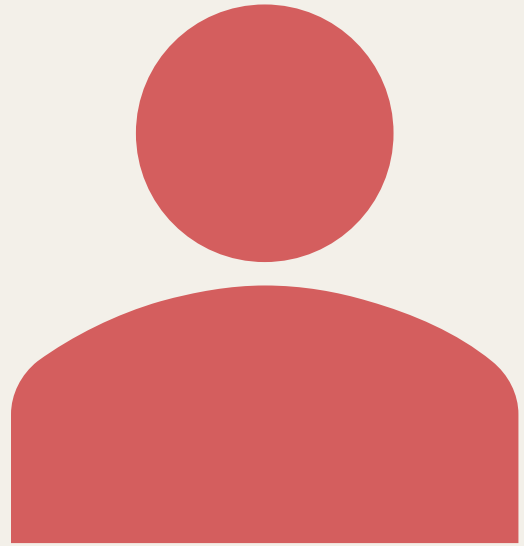

In today's digital era, traditional resumes alone are not enough to showcase skills and projects effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievements, skills, and experience.

## *About Me*

---

Hello! I am S. Vidhyalakshmi, a passionate developer currently pursuing B.Sc. in Computer Science. I am skilled in building responsive websites and enjoy learning new technologies to enhance my knowledge and skills.

# ***Skills***

---

C++

HTML

CSS

Python

Typing English (Junior, Senior)

# *Certificate*

---

A one day National conference in (AI)

Brain battle awards 2024

Mahaveer award for essays

Add on courses in advertising strategy

Government of Tamilnadu Department of Technical Education  
junior certificate

Certificate of appreciation excellent in academic performance

Cloud computing certificate

Web development certificate

Overview of English communication languill levels certificate.

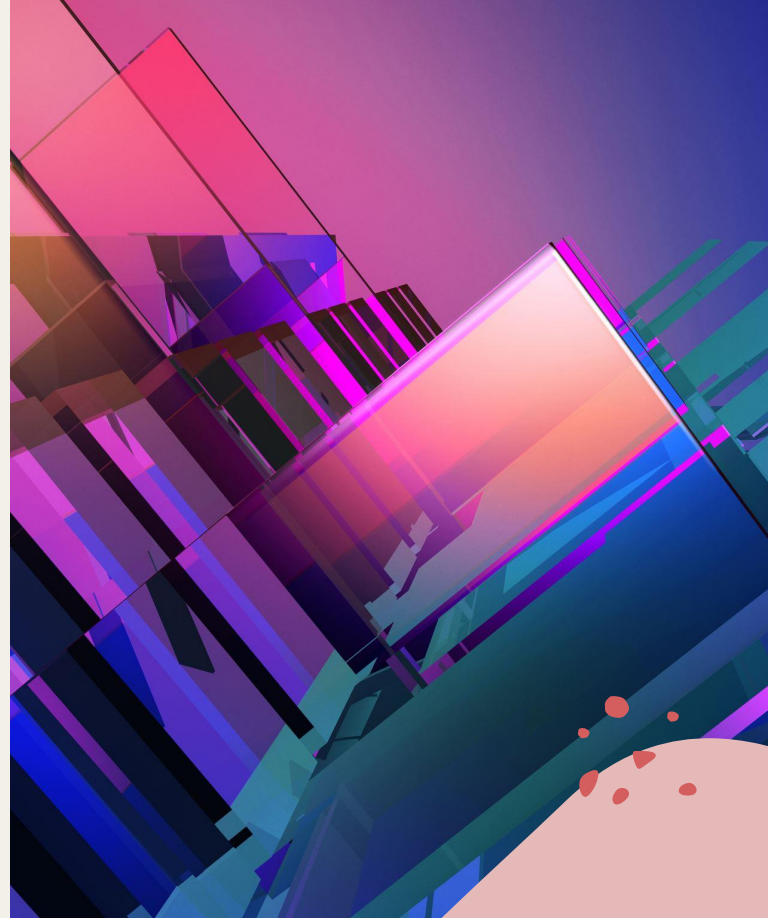

# *Content*

---

This project is a digital portfolio that highlights my skills, certificates, and projects. It serves as a professional platform to present my achievements in a structured way.

## *Main Ideas*

---

To create a structured online presence that highlights my skills and achievements, making it easier for recruiters, professionals, and peers to connect.

# *Who are the end user*

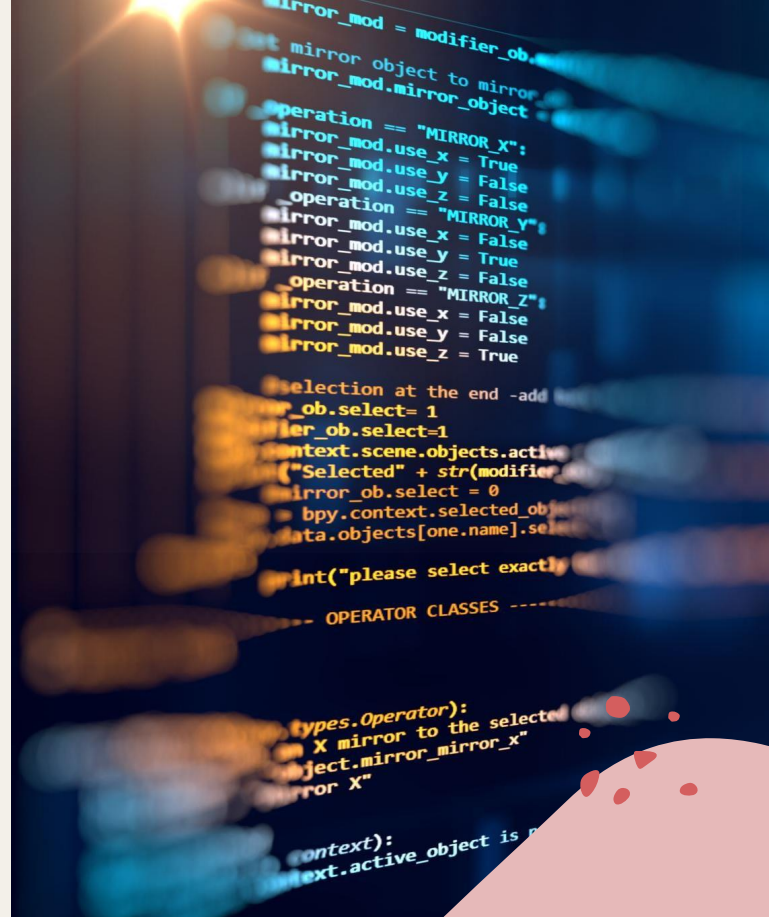

Students (academic projects, resumes) Job seekers (to share with recruiters) Freelancers (to show clients) Professionals (to highlight experience and achievements)

# TOOLS AND TECHNIQUES

---

HTML → Structure (pages, sections). CSS → Styling (colors, layouts, responsiveness). JavaScript → Interactivity (navigation menu, animations, form validation). Code editor: VS Code or CodePen Hosting platform: GitHub Pages

Sections included: Home/About Me detailed explanation Projects Skills Contact Responsive layout (mobile + desktop view)

## FEATURES AND FUNCTIONALITY

- Navigation bar with smooth scrolling.
- Project showcase with images/details.
- Interactive elements (hover effects, animations).
- Contact form (with validation).
- Responsive design for all devices.

# ***PROJECT OVERVIEW***

---

This project is a Digital Portfolio Website that showcases my academic achievements, technical skills, certificates, and projects. It provides a structured and interactive platform to present my work. The main goal is to build a professional online presence for career and learning opportunities.

# RESULT AND SCREENSHOT

## **Conclusion**

**A digital portfolio is more than just a collection of work — it reflects personal growth, skills, creativity, and achievements. It helps showcase one's journey, highlights strengths, and demonstrates the ability to adapt to new challenges. By presenting projects, certificates, and experiences in one place, a digital portfolio becomes a powerful tool for both self-expression and professional opportunities. It not only represents what has been achieved but also opens the door to future possibilities.**

# THANKING YOU

---

## *Thank You*

*Thank you for visiting my digital portfolio.  
Your time and interest mean a lot to me.  
I truly appreciate your support and  
encouragement as I continue to grow and learn in  
my journey.*
